

## VILLAGE OF RIVER GROVE 2024 DCEO Street Improvements

September 5, 2024

Dear Resident:

In order to complete concrete pavement patching at various locations on site, traffic will temporarily be restricted to one-way travel on Center Avenue between Struckman Avenue and Auxplaines Street. To assist in navigation throughout the project site, traffic control signage will be posted at locations in which this temporary change will be taking place. A traffic routing exhibit has been included on the backside of this notice to give an overview of what to expect during this time.

As outlined in the exhibit, there will be Road Closed signs posted at the intersection of Auxplaines Street and Center Avenue, along with one-way signs posted to indicated the restricted direction of travel. Additionally, Do Not Enter signs will be posted at Struckman Avenue and Center Avenue to notify East-Bound traffic along Center Avenue.

This change in traffic pattern will take place starting on Friday September 6<sup>th</sup> and will continue for no longer than 14 days to allow the contractor to complete one side the intersection, allow concrete cure time and complete patching on the other side of the intersection. Once completed, the traffic control will be lifted, and traffic routing will continue as usual.

We appreciate your cooperation and patience during this time and hope that you can enjoy these improvements as soon as possible. If you have any questions regarding this notice, please feel free to reach out to the contacts listed below for assistance.
